

3) V. Bird noted that none of the sites met the state guidelines to issue an emergency permit. L. Peltier trapping season is from November 1 – April 15 J. Huebner and L. Peltier discussed the need for permission from the property owner to trap on private property. L. Peltier stated that the generic NOI that was filed is incomplete and does not provide for all of the maintenance in all of the areas needed. The emergency permits were issued for all 7 sites with board member R. Borgnis objecting because none of the sites met the state guidelines for an emergency permit.
